Industrial Lubricants Since 1883

## Call us with your specific requirements for industrial lubricants.

### Industrial Lubricants

Clarkson & Ford Company manufactures a comprehensive selection of industrial lubricants. A partial list of our product line is listed below.

- Compressor Oils
- Drawing/Stamping Oils
- Gear Lubricants
- Greases
- Grinding/Honing Oils
- Lard/Neatsfoot Oils
- Lubricating Oils
- Machine Oils
- Motor Oils—Automotive and Truck
- Pump Oils
- Spindle Oils
- Synthetic Oils
- Way Lubricants
- White Oils

### Soluble Oils and Coolants

Clarkson & Ford Company's soluble oils and coolants provide stable water soluble emulsions. Our coolants are designed to satisfy today's demanding requirements for improved tool-life, product finish, and extended sump life.

- Heavy Duty Soluble Oils
- Chlorine-free Soluble Oils
- Emulsified Oils
- Semi-synthetic Micro-emulsions
- True Solution Synthetic Coolants

### Metal Working Lubricants

Clarkson & Ford Company compounds an extensive line of metal working lubricants. Custom formulations can be provided to meet specific requirements, including: occupational health and safety issues, equipment and production specifications, environmental concerns, and lubricant recovery programs.

- Cutting Oils for Ferrous and Non-ferrous Metals
- Active/Inactive Extreme Pressure (EP) Additives
- Non-staining Cutting Oils
- Chlorine-free/Sulfur-free Cutting Oils
- Bio-degradable Cutting Oils
- Tapping Compounds

### Hydraulic Oils

Clarkson & Ford Company also manufactures Premium Hydraulic and Turbine Hydraulic Oils. These hydraulic oils are formulated to meet the highest standards for anti-wear and rust and oxidation protection. Biodegradable Hydraulic Oils and Fire Resistant Hydraulic Oils are available to address special applications.

- Premium Hydraulic Oils (Anti-wear)
- Turbine Hydraulic Oils
- Biodegradable Hydraulic Oils
- Fire Resistant Hydraulic Oils
